PUBLIC EMPLOYEES BENEFITS AGENCY REVOLVING FUND

FINANCIAL STATEMENTS

YEAR ENDED MARCH 31, 2006

AUDITOR'S REPORT

To the Members of the Legislative Assembly of Saskatchewan

I have audited the balance sheet of the Public Employees Benefits Agency Revolving Fund as at March 31, 2006 and the statements of operations, and changes in accumulated net expenditure for the year then ended. The Revolving Fund's management is responsible for preparing these financial statements for Treasury Board's approval. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Revolving Fund as at March 31, 2006 and the results of its operations and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

PUBLIC EMPLOYEES BENEFITS AGENCY REVOLVING FUND
NOTES TO THE FINANCIAL STATEMENTS

MARCH 31, 2006

1. Authority and Definition of Accounting Entity

The authority for the Public Employees Benefits Agency Revolving Fund (Revolving Fund) is contained in Section 65 of *The Financial Administration Act, 1993*. The Revolving Fund was established to account for the administration costs of the Public Employees Benefits Agency (PEBA). These costs are allocated to the various pension plans and benefit programs administered by PEBA in accordance with the policy described in Note 2(c).

2. Significant Accounting Policies

The financial statements are prepared in accordance with Canadian generally accepted accounting principles. These financial statements do not present a cash flow statement because the required cash flow information is readily apparent from the Statement of Changes in Accumulated Net Expenditure and Note 5. The following policies are considered significant:

a) Net Financing Requirements

The net financing requirement is the cash flow from (to) the General Revenue Fund. It represents the total annual financing requirements resulting from net capital acquisitions, working capital changes and net cash flow from operations.

b) Accumulated Net Expenditure

The accumulated net expenditure of the Revolving Fund consists of the net increase (decrease) in financing requirements for each fiscal year since inception.

c) Revenue – Administration Fees

The costs incurred by PEBA in the administration of the various pension plans and benefit programs are billed on a monthly basis to these plans and programs, as follows:

i) Costs relating to a particular pension plan or benefit program are charged to that plan or program.
ii) All other costs are charged to the various pension plans and benefit programs using a formula primarily based on employees' time required to administer these plans and programs.

d) Capital Assets

The Revolving Fund capitalizes assets greater than $2,000 for purchased computer hardware, software, and furniture; greater than $20,000 for system development; and greater than $10,000 for leasehold improvements.

Capital assets are amortized on a straight-line basis over five years for purchased computer hardware and software, over ten years for system development and furniture, and over the lease term for leasehold improvements. Assets are amortized commencing in the year in which assets are placed into service.

Work in progress assets include system development costs incurred for systems not yet placed into service.

The cost and related accumulated amortization of items retired or disposed of are removed from the records and any gains or losses are included in the statement of operations.

3. Authorized Financing

Subsection 65(12) of *The Financial Administration Act, 1993* provides for the maximum accumulated net expenditure to be set by order of the Lieutenant Governor in Council. The maximum amount has been set at $4,600,000 by Order in Council 421/2004.

5. Net Change in Working Capital Items Related to Operations

	2006	2005
Increase in accounts receivable	$ 200,871	$355,584
(Increase) decrease in accounts payable and accrued liabilities	(419,494)	112,536
	$(218,623)	$468,120

6. Related Party Transactions

Included in these financial statements are transactions with various Saskatchewan Crown corporations, departments, agencies, boards, and commissions related to the Fund by virtue of common control by the Government of Saskatchewan. These financial statements also include transactions with non-Crown corporations and enterprises subject to joint control or significant influence by the Government of Saskatchewan collectively referred to as "related parties".

Expenses include $1,312,588 (2005 - $1,253,646) that the Department of Finance paid for rent and certain administrative services provided to the Revolving Fund. The Revolving Fund bills the pension plans and benefit programs administered by PEBA in accordance with subsection 64(7) of *The Financial Administration Act, 1993*, to recover those expenses. Amounts received by the

Revolving Fund relating to these costs are paid to the General Revenue Fund in accordance with subsection 65(11) of *The Financial Administration Act, 1993*.

In accordance with established government policy, the Revolving Fund has not been charged with certain costs including financing and certain administrative costs. These costs have been absorbed by various departmental appropriations and therefore, no provision for such costs is reflected in these financial statements.

Routine operating transactions with other related parties are recorded at agreed upon rates and are settled on normal trade terms.

The following table summarizes the Revolving Fund's related party transactions.

	2006	2005
Administration fees	$8,009,311	$6,780,328
Expenses:

Accounts payable and accrued liabilities	$415,889	$ 83,532

In addition, the Revolving Fund pays provincial sales tax to the Saskatchewan Department of Finance on all its taxable purchases. Taxes paid are recorded as part of the cost of those purchases.

7. Budget

The various pension plan and benefit program boards approved their component of the annual budget. A copy of the annual budget was also submitted to Treasury Board.

8. Amount Reported in Public Accounts

The net (expense) recovery of the Revolving Fund reported in Public Accounts is the net income of the Revolving Fund adjusted for the following differences in accounting policies and other adjustments between the Revolving Fund and the General Revenue Fund:

	2006	2005
Net income	$ ---	$ ---
Increase in net capital assets	(495,549)	(1,905,027)
Amounts not included in Public Accounts due to timing	1,048	(866,999)
Net (expense) reported in Public Accounts	$(494,501)	$(2,772,026)

9. Financial Instruments

a) Significant terms and conditions

There are no significant terms and conditions related to financial instruments classified as accounts receivable, and accounts payable and accrued liabilities that affect the amount, timing, and certainty of future cash flows.

b) Credit risk

The Revolving Fund is exposed to credit risk from potential non-payment of accounts receivable. However, the majority of the Revolving Fund's receivables are from government plans and programs administered by PEBA. Therefore, the credit risk is minimal.

c) Fair value

The Revolving Fund's financial instruments include accounts receivable and accounts payable and accrued liabilities. Due to their immediate or short-term nature, the fair value of these instruments approximates the carrying value.

The fair value of the accumulated net expenditure has been omitted because it is not practicable to determine the fair value with sufficient reliability.
